

BILLAL NOOR

Leicester, UK | 07379 375786 | billytoothpunch@gmail.com
github.com/billytoothpunch/Engineering-Portfolio

PROFILE

Second year Aeronautical Engineering student at De Montfort University. Experience using Creo Parametric, ANSYS Mechanical, MATLAB and XFLR5. Portfolio includes CAD, finite element analysis, flight dynamics and aerodynamic analysis projects.

ENGINEERING PROJECTS

Bicycle Crank Structural Optimisation

- Reduced component mass from **727 g to 297 g**
- Used ANSYS Mechanical to optimise geometry
- Maintained acceptable stress levels and factor of safety
- Produced CAD model and engineering drawings

Aircraft Landing Gear Assembly

- Designed complete landing gear assembly in Creo
- Produced detailed parts, assemblies and drawings

Cessna Citation 550 Flight Dynamics

- Modelled aircraft dynamics in MATLAB
- Analysed stability and aircraft response

Airfoil Analysis

- Analysed aerodynamic performance using XFLR5
- Compared lift and drag characteristics

Bench Vice Assembly

- Modelled complete mechanical assembly
- Produced manufacturing drawings

EXPERIENCE

Sales Assistant | Jeans & Jeans (June 2026 – Present)

- Help customers choose formalwear, footwear and casual clothing
- Process cash and card payments
- Work in a busy retail environment

Founder | KidSafetyControl (October 2025 – March 2026)

- Started a parental control setup business
- Installed and configured parental control software
- Supported customers with setup and troubleshooting

Android Developer | Fresh Vision Studios (August 2024 – October 2024)

- Developed Android application features

AI Model Trainer | Outlier (September 2024 – January 2025)

- Evaluated mathematics and programming responses

AI Model Trainer | Pareto AI (November 2023 – March 2024)

- Completed technical evaluation tasks

EDUCATION

BSc Aeronautical Engineering

De Montfort University
September 2024 – June 2027
Expected 1:1
